

Translate Macro Function Manual

=Translate([text to be translated];[the language in which it is written];[the language into which we want to translate])

Przykłady

A1	:	✕	✓	<i>f_x</i>	=Translate("cześć";"pl";"en")			
	A	B	C	D	E	F		
1	hi there							

B2	:	✕	✓	<i>f_x</i>	=Translate(A2;A1;B1)			
	A	B	C	D	E	F		
1	pl	en						
2	cześć	hi there						

When operating on cellular data, it is important that languages are lowercase.
